# CODING PLATFORMS

UTKARSH - CSI Student Branch, MUST Lakshmangarh organize a Coding session on 28 August 2021 and 4 September 2021.

On 28 August 2021, participants were made acquainted with the coding platforms like hackerrank, hacker earth, leetcode, etc. Seniors guided the students to make their accounts on these platforms and how to effectively use them for coding. The members were told to start with the 30 days of code in their preferred programming languages on Hackerrank and report the seniors about the progress in the same.

In continuation of that a session on 4 September 2021 was organized where the members were made familiar with different important tools for a Computer Science professional like LinkedIn and Github. All the members were taught how to make their LinkedIn profiles, how to keep them updated, and all the necessary information to be included in the profile.

Apart from the LinkedIn profile, the members were taught how to use Git and Github and the commands one needs to use the platform. This fun and interactive session on Git and Github were organized by the fourth year and both second and third year got to learn new things about the platform.

At the end of the session, all the doubts and questions were resolved by the 4th year.
